Minutes - February 7, 2013

SRC Performance Review Committee

SRC Performance Review Committee							
Thursday, February 7, 2		10:00 am - 11:55 pm	Village Gre	Vocational Rehabilitation en, Middlebury, VT 05753			
Meeting called by	Ellie N	Ellie Marshall, Chair at 10:00 am.					
Members Present	Sam L	Sam Liss, John Alexander and Adam Leonard					
Members Absent	P. Neal Meier, William Pendlebury, John Spinney and Jennifer Whitmore (approved leave of absence)						
SRC Liaison	James	Smith, VR Budget and P	olicy Manago	er			
SRC Coordinator	Rebekah M. Stephens						
Interpreters	n/a						
Speakers/Presenters	Renee Kievit-Kylar (VR Transition Projects and JOBS Program Coordinator) via phone and Clayton Clark, VR Senior Planning Coordinator						
Facilitator							
Guests		Hill, newly appointed SF	RC member				
1. Today's Agend	i a						
Discussion	James	suggested switching age	enda items #	3 and #4 as Renee Kievit-	Kylar will be		
participating by phone	and bo	th items are content heav	vy.				
Conclusions	Memb	ers approved switching a	igenda items	#3 and #4 on today's age	enda.		
2. Approval of M	inutes -	- October 4, 2012 Comm	ittee Meetin	g			
Discussion	No dis	cussion. Sam Liss made	motion to a	pprove. John Alexander 21	nded.		
Conclusions	Appro	ved unanimously.

SRC Performance Review Committee

Transition plan is part of the formal IEP for the student and may include recommendations for on the job Supports or additional training. The TC sets up the plan that the YES will work from when the student graduates from high school. Because YESs are contracted through VABIR it is easier to bring on additional YES positions. Whereas, TCs are state employees and the process for hiring additional TCs is much more difficult. John Alexander suggested that TCs become involved with students much sooner than the senior year of high school. Renee responded that by statute schools are required to have a transition plan for all IEP students by the age of 16. Though TCs are involved in assisting the schools with writing a transition plan it is the responsibility of the school to develop the plan. The special educator is required to invite the TC to IEP meetings. The TC may attend in a solely advisory capacity only. John Alexander suggested VR provide education/training to special educators on the process of putting together a strong transition plan. The Department of Education just received a 5 year grant for developing a training program on transition planning for special educators. Renee and Diane Dalmasse meet with John Spinney, Department of Education, Special Education Consultant, Post Secondary Transition Specialist Integrated Support for Learning, on a regular basis in order to facilitate the joint efforts between VR and DOE. TCs encourage parents to be involved with the transition process. Parents and students are invited to meet with TCs outside of the school setting. In an ideal world, TCs would be involved as early as possible in the transition plan process, however, there are just not enough TCs to go around at this time. James Smith offered that he is not sure that earlier involvement by TCs would be beneficial. Ultimately it is the responsibility of the school to develop a strong transition plan. That is why the development of a training program for special educators is being developed. Schools also have the ability to contract directly with VABIR for YESs. Ellie Marshall suggested that VR could offer schools additional clarification on the role of TCs in schools and suggestions on how to develop a strong transition plan. The Transition Project has already provided schools with a written document detailing the role of a TC in a school and the steps the school can take to develop a strong transition plan. Renee will email the document to Ellie Marshall for distribution to the PR Committee members. Rebekah Stephens will post the document to the SRC website once received from Ellie. Renee feels that the document has helped the overall process, however, it is an ongoing discussion between TCs and special educators. One of the main issues is the high turnover of special educators in schools. The information is being lost from one hire to the next. James Smith asked the Committee members if this is a topic that they feel needs more in-depth follow up? The question of adequate services is being addressed by VR. VR has made massive strides in this area over the past decade and efforts to improve transition services are ongoing. Plans for additional resources are being developed. John Alexander suggested that in order to draw more families to the existing services, the focus should be on quality not quantity and success stories should be publicized. John also suggested using an Order Of Selection process in schools to determine who gets transition services. Adam Leonard wanted to know if the VR Consumer Surveys results for the age group of 16 - 25 years are available for review? Ellie Marshall requested a one page summary from Renee focusing on the areas **Conclusions** of concern identified by the Transition Project and how VR is currently addressing each of these areas. Once this summary is received the Committee members will review and determine if a deeper dive into this topic is necessary. 5. Continued Discussion on Unsuccessful Closures (28) as related to Mental Health Disability							
Consumers, Total Number of Consumers with 28 Closures Used to Generate Percentages, and 5 year Trending of 28 Closures that Resulted in Employment Apart from VR Involvement							
	Clayton Clark, VR Senior Planning Coordinator						
Discussion	Clayton distributed "Mental Health Consumer (Outcomes Data" memo t	o members.				
Clayton organized the data presented today into 3 categories: 1. Consumers with a Mental Health Disability							
by Office, 2. Comparison of Mental Health Outcomes with Supported Employment and 3. 28 Closures with							
Income. Category 1. is clearly defined and detailed in the memo. The memo broke down the information							
by office and showed the actual number of consumers used to determine the percentages. Under Category							
2. "All Other Closures" was discussed by members. "All Other Closures" represents consumers that never							
make it to an IPE or drop out of the VR process for other reasons. A consumer may secure employment prior							
to making it to the IPE. Consumers that participate in Supported Employment have better employment							
outcomes then those that do not. Supported Employment services for consumers with mental health issues							
require more intensive services. These services are supplied by the mental health agency. VR contracts							
	with the mental health agency for these services. Services can include but are not limited to on-the-job						
support or an occasional check in over a period of time. The CRT (Community Rehabilitation and Treatment)							

Minutes – February 7, 2013

SRC Performance Review Committee

program plays a large role in these on-going support services. Consumers that receive Supported Employment services are participating in the CRT program. However, not all consumers that participate in the CRT program receive Supported Employment services. Laban Hill wanted to know what VR can do to reduce the 33% number of consumers that never make it to an IPE. Clayton suggested peeling back the 33% number and determining the reasons behind the closure. Clayton suggests pulling out all consumers who secure employment before reaching the IPE stage. James Smith agreed, that he too, is concerned with the 33% number and would like to see a deeper dive into the data. Clayton will provide this data for the next PR meeting in April. Adam Leonard wanted to know how these mental health numbers compare to the overall general VR consumer population. Category 3. Information was pulled from a comparison of the VR numbers and DOL (Department of Labor) numbers. Data is from in-state employment numbers only and does not include self-employed data. Clayton arbitrarily chose the income level of \$1500.00 per quarter or \$500.00 per month. He wanted to make sure the data had enough meat because DOL includes wages of \$1.00 in their data. The data shows that a "significant number of 28 clients have income during the quarter of closure and 12 months after closure." Clayton will provide Rebekah Stephens with the electronic version of all previous memos on this topic. Rebekah will forward out to PR Committee members for review prior to April 2013 committee meeting. The PR Committee will continue to dive deeper into this topic. **Action Items** Person Responsible Deadline Provide electronic versions of all prior "28" memos to PR Committee Clayton Clark / 3/5/2013 members for review prior to April meeting Rebekah Stephens Put discussion of "33% All Other Closures" on April 2013 agenda Rebekah Stephens 3/20/2013 6.
