Allen Evans is concerned that he might be over-committed at this time. James Smith explained that P&P is a review committee and that VR holds the majority of responsibility for getting the work done. 6. Review of Chapter 306, “Rehabilitation Technology Services”		
-----	Amber Fulcher, Program Director, VT Assistive Technology Program	
Discussion	Committee members reviewed this chapter and several changes were recommended.	
Home modifications and how they must be linked to an employment goal was discussed in depth. Is it a VR or IL (Independent Living) issue? Committee members were surprised with how much of the Chapter 306 is focused on home modifications. Committee believes that the wording around home modifications needs to be tightened up to ensure that home modifications are linked to an employment goal. There needs to be a clear and direct connection between the home modification and the vocational rehabilitation goal.		
Committee also recommends that DVR clarify the line of division between DVR and school purchases of AT equipment for students (Section III. Spending and Related Guidelines, Guidance – page 3) . Who is responsible for the purchases needs to be clear under guidance section. Several other changes to this chapter were recommended. All recommended changes are listed below under Action Items.		
Conclusions	Amber Fulcher will revise this chapter incorporating all recommended changes. A draft of revised chapter will be forwarded to Rebekah Stephens by April 17, 2013. Once received, Rebekah will forward out to all committee members for review. Discussion of revised chapter will be put on May P&P agenda. Amber Fulcher will attend May P&P meeting.
