<p>Discussion</p>	<p>Diane Dalmasse reported that VR is not impacted by any AHS reductions. We have received good news from the Feds that we will be receiving a cost of living increase. We will be losing our Title 6b funding which amounts to the same increase we are getting in cost of living. The Title 6b funds have been provided to the Designated Agencies to implement Supported Employment.</p> <p>Diane reported that she and the DAIL business person have come to an agreement about VRs budget and we are looking okay as to revenue and expenses.</p> <p>The department is very concerned about losing Attendant Services funding which allows consumers to get to work.</p> <p>The only other budget implication is the 4% reduction in development services waiver program.</p> <p>In the current financial climate, Brian said that we must show a return on investment, which is why data is so important.</p> <p>Chris said there are several special education funding proposals that are currently in the legislature.</p>

	<p>on any events or legislative items that they should be aware of. Diane said that could be included in report outs.</p> <p>Sherrie would like to learn from the Regional Managers' presentation what is working in their region and what their challenges are.</p> <p>Diane said VR's huge overarching theme is around Career Pathways. We have developed eight project charters that talk about our project management plan and what our action plan is. These are all coming from eight visions statements that she put together in large part based from conversations she and the SRC has had over the past couple of years. The focus of the work in the regions is going to be all about vocational assessment, career counseling, and motivational interviewing.</p> <p>Brian said that there are pockets of people that are looking to obtain higher education without costs and within that conversation it would be good for people with challenges have that opportunity. However, ultimately since government is going to be parsing out a resource, it should be considering and prioritizing these resources for those most in need and where it can receive the biggest bang for its investment.</p> <p>The presentation scheduled for June to the Full SRC is currently Career Pathways.</p> <p>Diane is currently in the process of reviewing caseloads to implement the College Steps Program at Castleton. This would assist not only people with developmental disabilities but others that need extra support.</p>
